PROFESSIONAL SUMMARY

MCA graduate with a strong foundation in software engineering, data structures, and algorithms, along with hands-on experience in full-stack development. Proficient in Python, SQL, and JavaScript, FastAPI, React.js with practical exposure to database design, OOPS concepts, and web application development. Passionate about solving complex coding challenges, adapting to new technologies, and contributing to innovative product development in collaborative environments.

EDUCATION

Sathyabama University
Master of Computer Applications

Chennai, India
June 2024 - April 2026

Ideal Arts and Science College
Bachelor of Science in Computer Science (BSc CS)

Kerala, India
June 2021 - April 2024

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript, HTML, CSS

Frameworks & Libraries: React.js, FastAPI

Databases: MySQL, MongoDB, Database Design, SQL Queries

Developer Tools & Platforms: VSCode, Tableau, PyCharm, IntelliJ IDEA, Git, GitHub, Postman

Automation & Scripting: Python-based automation scripts, Backend workflow automation, Bash scripting (basic)

Soft Skills: Effective Communication, Resilience, Rapport Building, Collaboration, Time Management

PROJECTS

Virtual Medical Assistant System

- Developed a Virtual Medical Assistant leveraging AI, NLP, and RAG-based retrieval to deliver accurate patient support for queries, appointments, and health guidance, backed by an integrated database system.

RAG, Node.js, Express.js, React.js, MongoDB

AI Email Support Automation Bot

- Built an AI-powered email automation system that reads customer emails from a support inbox, detects issues using NLP, and automatically sends response emails while escalating unresolved queries to human agents.

Python, NLP, FastAPI

RAG-Based PDF Chat Application

- Developed a RAG-based PDF question answering system using document embeddings. Implemented text extraction and chunking for efficient retrieval.

Python, Fastapi, RAG, React.js

CERTIFICATIONS

Full Stack Development- Code Camp (March 2024)

- Built and deployed a full stack web application using React.js, Node.js, and MongoDB with user authentication and responsive design.

Python-Coursera (March 2025)

- Completed an intermediate Python course covering functions, file handling, modules, error handling, and working with libraries like Pandas and NumPy.

ACHIEVEMENTS

- Conducted a workshop on Web Development basics for 60+ students, earning highly positive feedback for clarity and engagement.
- Volunteered in organizing a college tech fest, handling the registration portal and ensuring smooth participation for 200+ students.
